

Control Panel

For Fire Tube

▶ Description

Small space for equipment or attach an existing Fire tube type extinguishing system with temperature sensor with set expressions Fire tube type fire extinguishers only applied switchboard and control panel with improved fire safety by monitoring the double product

▶ Features

- The application of Fire tube system for Receive
- Built-in temperature sensor set type (Temperature can be set according to the field conditions)
- Built-in spare power
- Spare power test functions are built.
- The real-time monitoring of operational status of the system by RS-485 communication

SPECIFICATION	
Model	NTB-1GG0241
Size (W x D x H / mm)	300 x 150 x 550
Weight	12kg
Use Temperature	-5°C ~ 40°C
Power	FREE VOLTAGE (AC 90V ~260V), 50/60Hz
Emergency Power	DC 24V / 1300mA NI-CD Battery
