

■ The Operating Device

■ Type Of Solenoid

▶ Description

Gas based fire extinguishing equipment as applied to the digestion vessel open for equipment By applying a solenoid system
The compact, lightweight product development structure

▶ Features

- The smallest, lightest of the domestic production
- 3 lines can be connected to multiple devices at work wiring structure
- Spindle, can be applied to both pin-type fire extinguisher valve
- Manual operation is possible

SPECIFICATION		
Model		NSV-1GG0241
Size (W x D x H / mm) / Weight	S Type	137 x 80 x 36 / 0.82kg
	F Type	162 x 74 x 36 / 0.85kg
Use Temperature		-10°C ~ 60°C
Useing Power		DC 24V / 1.9A(Max.)
